## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/424,430 , filed on 4/21/1995.

### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10-21-2005 has been entered.

### ***Allowable Subject Matter***

3. Claims 28-36 and 40-51 are allowed.
4. The following is an examiner's statement of reasons for allowance: The present invention is directed to a portable communicator comprising: a wireless communication device that is wirelessly connected to a public communication channel and conducts transmission and reception through the public communication channel; a computer that outputs control commands to the wireless communication device, enters data from the

public communication channel through the wireless communication device and transmits data to the public communication channel through the wireless communication device; a first display and a second display that shows predetermined images sent by the computer; a power controller that provides power from a storage battery to the first display when an on-switch is operated to output an on-signal, which activates the first display wherein input and output take place using the first display and that puts the first display on standby when an off-switch is operated to output an off-signal; and a housing that contains the wireless communication device, the computer and the display assembled therein, wherein the computer comprises: a power capacity determination device that detects the power capacity of the storage battery irrespective of the operated action of the on and off switches; a power capacity display device that shows on the second display the power capacity determined by the power capacity determination device; a determination device for a standby-for-reception status determining whether or not the wireless communication device is in the standby-for-reception status; and a display device for an operation condition showing a waiting-for-reception condition on the second display when the determination device for the standby-for-reception determines that the wireless communication device is in the standby-for-reception status.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VIJAY SHANKAR whose telephone number is (571) 272-7682. The examiner can normally be reached on M-F 7:00 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, BIPIN SHALWALA can be reached on (571) 272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
